

The MAINE STATE MUSEUM Presents:

February Science Explorations

Join our museum educators FEBRUARY 18-21 for in-depth explorations of the natural world around us. Programs are 30 minutes long and free with the price of admission

TUESDAY, February 18th at 10:00 AM & 1:00 PM

Life Under A Log Take a closer look at reptiles and amphibians found in Maine and discover what makes them unique compared to other animals.

WEDNESDAY, February 19th at 10:00 AM & 1:00 PM

Formation of Rocks and Minerals Examine amazing and beautiful rock and mineral specimens found in Maine. Learn how they were formed and how they are put to use in buildings, bridges, and sculpture.

THURSDAY, February 20th at 10:00 AM & 1:00 PM

Life in a Tide Pool Let's go to the sea shore and examine the amazing sea creatures that gather in tide pools. Examine preserved specimens and the coastal dioramas in our Back to Nature exhibit.

FRIDAY, February 21st at 10:00 AM & 1:00 PM

Mammals Small and Large How do you stay warm in the cold snow? Are you warm or cold blooded? Are you a mammal? Discuss, compare, and have fun!

Natural Science Touch Cart available for exploration daily 11-12 & 2-3

The Maine State Museum is located at 230 State Street. Museum admission is \$3 for adults; \$2 for senior adults over the age of 62 and children 6-18 years of age; children under 6 are free. Museum hours are Tuesday - Friday 9-5; Saturday 10-4, and closed Sunday, Monday and all state holidays. For more information, call 207-287-2301 or visit www.maine statemuseum.org
